

Project Brief: Epsilon Pi Chapter – Lambda Theta Alpha Latin Sorority Incorporated

Epsilon Pi is a Chapter of Lambda Theta Alpha Latin Sorority Inc. (LTA) at Michigan State University. LTA was founded as the first Latin sorority in the nation, and was established to cater towards the needs of Latinas and the Universal Women in higher education, by providing a sisterhood based on Unity, Love, and Respect. The Epsilon Pi Chapter needs a new website to showcase the sorority as a whole and the growth and history of the chapter since it was established in spring of 2011 in Michigan State University. The new site should be designed to be more appealing and organized to the visitors. It should also make it easier to access information of the organization, and to acquire more information of upcoming events.
